TAKE THEIR OLD JOBS

Striking Freight Handlers at Chicago Decide to Return to Work.

CURRAN ASSERTS HE WAS BETRAYED.

The Railroad Managers Issue a Statement Announcing That They Will Abide by Their Proposition of July 1.

Chicago, July 17.—The association of railway general managers, embracing every road which enters Chicago, have issued the following signed statement: "All of our old men, not before on hand for work, reported at the freight houses at noon and were put to work. No conference was held with any committee or otherwise since Tuesday, and no agreement was made with the union or with any committee. The men simply reported for work, and they doubtless expect and will receive the pay offered July 1, and which the railway companies have been willing all along to pay."

Chicago, July 17.—After 10 days of strike the Chicago freight handlers' strike terminated in an unqualified victory for the railroad. A meeting of the strikers, presided over by President Curran resulted in an almost unanimous vote to return to work, leaving the wage scale and other questions for settlement between the men and their respective roads.

At the conclusion of the meeting the strikers went in bands to the warehouses to apply for their old positions, and the teamsters, who have remained out in sympathy, again took up their reins. By noon immense quantities of freight, which had been held back for days, were being pushed to the railroads or taken from warehouses and cars. Commercial activity again reigned. Chicago merchants expressed unbounded relief at the termination of hostilities, but they were scarcely less happy than the men themselves, although the strike is estimated to cost them \$10,000,000, to say nothing of the trade that has been permanently lost to them.

The little hall, where the meeting of the strikers took place, was jammed to suffocation and thousands were unable to obtain entrance. It was a brief meeting, with an angry speech by President Curran.

"Men," said Curran, "we came out like men; we have acted like men, and we should not go back like sheep, but there has been treachery in our camp. Tuesday, when I was about to use the telephone, the wires got crossed and I heard one of the members of our executive committee talking with a railroad manager. He was encouraging the manager to hold out, for he told him the strike was almost broken. That is a sample of the faith that has been kept with me. The officials of the truck drivers' union have not kept faith either, and it seems useless to continue the fight any longer. Shall we go back and ask for our old jobs?"

In this simple form the matter was put to a vote and almost immediately a great chorus of ayes had brought to a peaceful end one of Chicago's most serious and threatening labor situations. It is believed the roads generally will allow the truckers 17 cents an hour and minor concessions granted by the company on July 1.

Mr. Curran, in the course of his address to the men, said: "I am going to organize the freight handlers all over the country, and when we decide to fight again, it will not be a struggle between the freight handlers in Chicago and the railroads, but between the railroads and the freight handlers all over the country."

The railroad managers when told of the vote to return to work said that wherever possible the old men would be taken back. A small percentage of the new men, however, will be retained, for a time at least.

Nowhere was the news of the settlement received with more pleasure than at the warehouses, where thousands of men, gathered at other points of the various roads to take the places of strikers, were longing to return to their homes. They had been well-fed and given good sleeping quarters, but the big majority of them being accustomed to the comfort of their homes were tired of "being herded."

To Rebuild the Campanile.

Venice, Italy, July 17.—Offers of money to aid in rebuilding the Campanile continue to be received from abroad, including offers from America, but there is a disposition to make its reconstruction a purely national affair and to rebuild the structure exactly as it was prior to the collapse without foreign assistance. The cost is estimated at 6,000,000 lire.

PROFESSOR CURTIS

Tells How Inhabitants Can Be Protected From Volcanoes.

New York, July 17.—Dr. Edwin Otis Hovey and Professor George Carroll Curtis, who have been in St. Vincent and Martinique, the former representing the American Museum of Natural History and the latter the United States geological survey in the investigation of the volcanic outbursts in the islands, have returned to New York. "By building large houses of solid masonry, into which the people could flee for refuge, I think the most serious dangers from possible subsequent eruptions could be ministered, both in St. Vincent and St. Pierre," said Professor Curtis.

"In Orange Hill, St. Vincent, 130 people were saved by rushing into a cellar so situated that they were protected against the volcanic blast, which is proof that similar protection can be provided for against future eruptions."

A Fight Predicted.

Madison, Wis., July 17.—Two hours before the Republican state convention was called to order no agreement had been reached between the "stalwarts" and the governor's forces, whereby the former was to have a hearing before the convention when the platform comes up for action. It is said that as many as a dozen different resolutions on the Spooner matter have been prepared, nearly all of which carry with it an endorsement of a provision, whereby the senator must stand upon the principles laid down in the platform and support the nominees. If the "stalwarts" can muster enough strength from the LaFollette followers when the Spooner plank is read they may succeed in being heard. It is known that Senator Spooner has a host of friends in the LaFollette faction, who will stand with the "stalwarts" on this one question, but it is doubtful whether their strength is great enough. A bitter fight is predicted.

The Olympian Advocates.

Berlin, July 17.—The Olympian games delegates, Judge John R. Payne, Laverne W. Noyes and Henry J. Furber, Jr., of Chicago, have arrived here. Their first object is to see Emperor William and stimulate his personal interest in the contests of 1904, which are to take place in Chicago. His majesty is cruising in Norwegian waters, but the delegates, if the emperor intimates his willingness to grant them an audience, will visit the court wherever it may be convenient. They bear letters from President Roosevelt and Secretary of State Hay that will doubtless facilitate their approach to the emperor.

Another Phenomenal Run.

Rochester, N. Y., July 17.—The "Twentieth Century Limited" has broken another record for phenomenal time. It left Buffalo Tuesday 46 minutes late at 1:20. The schedule time for its arrival here is 1:58, but it did not get in until 2:30 and departed at 2:32. The train, if on time, should arrive at Syracuse at 3:29. The speed attained in the run carried it over the 79 miles between Rochester and Syracuse in 57 minutes, arriving at Syracuse on time. The distance between Buffalo and Syracuse is 148.80 miles, which was made in 129 minutes, not allowing for the stay here and slowdowns.

Colonel Wick Retires.

Youngstown, O., July 17.—The retirement of Colonel George D. Wick from the presidency of the Youngstown Iron, Sheet and Tube company, the largest independent industry in the Mahoning valley, is announced. Colonel Wick, who is in Europe, retires on account of his health. The stockholders of the company will meet next week to elect a successor.

J. Stanley Brown's New Job.

New York, July 17.—J. Stanley Brown, son-in-law and secretary of the late President Garfield, has been appointed assistant to President Baldwin of the Long Island railroad. For a number of years Mr. Brown was assistant secretary of the Union Pacific Railroad company and secretary to E. H. Hariman, chairman of the Union Pacific board of directors.

Eclectics In Session.

Put-in-Bay, O., July 17.—The Ohio State Eclectic Medical association began its 38th annual convention here. Dr. Schiller of Youngstown is president. The morning session was devoted to the reports of committees and the afternoon session to the section of obstetrics, diseases of children and the president's address. One hundred physicians are present.

Rochester, N. Y., July 17.—Norwood P. Keen and Samuel T. Aber, brokers of this city, are under arrest on charges of grand larceny. The Metropolitan stock exchange of Boston is complainant.

MINERS' CONVENTION.

Delegates From Various Sections Gather at Indianapolis.

MR. MITCHELL DECLINES TO TALK.

The President of the Miners' Organization Reserves the Right to Express His Views to the Convention.

Indianapolis, July 17.—President Mitchell of the Mine Workers arrived here for the convention, which will meet Thursday. He declined to express any opinion regarding the probable action of the convention, saying that he did not know what would be done. When told that the majority of the delegates were looking to him for leadership and would in all probability follow his advice in the matter of voting for a strike he declined to say what he would urge the men to do.

"I shall make a speech at the opening of the convention," he said, "but I will wait until that time to say whatever I intend to say."

"I am confident that we will win our strike," continued Mr. Mitchell. "The operators have not succeeded in getting a single miner to return to work, and I do not think that they will get any. A few engineers have gone back, but not a single miner. We are in good shape to continue the strike and have plenty of money at the present time. We have no intention of asking anybody for contributions, and we are in such good shape that I think we can keep on and win the strike without calling on anybody else. I certainly hope that this will be the case. The miners have no desire to ask aid of other organizations if it can be avoided."

The opinion prevails among the delegates who are here that President Mitchell will not advise a strike of the soft coal men.

President Reese of the Iowa miners arrived, and declared that the delegates from his state were in favor of a strike of the soft coal men only as a matter of the last resort.

"I do not think it advisable myself," he declared, "and the men from my state are of the same opinion. However, the opinion of the convention may be different from ours. We will favor a general strike only as the last thing to be done, and while I am not predicting the action of the convention in anyway, I think that many of the delegates, particularly the bituminous men, will not be in favor of a strike, if there is any other way to settle the trouble. Strikes are a last resort always, and I think that such will be the case with this convention."

But a few delegates have arrived and the great number of them is not expected before Thursday morning. While in general the men who have arrived are non-committal, the majority of them are not in favor of a strike. This aspect may change somewhat when the anthracite men arrive.

Will Recognize European Members.

Toronto, Ont., July 17.—The International Molders' union has adopted a resolution providing for the recognition of the cards of members of European unions to the extent of allowing their holders to work a sufficient length of time to demonstrate their eligibility for membership in the American International union. The convention decided to have the constitution and ritual printed in language other than English for the benefit of the foreign element in American cities. Resolutions were presented and referred protesting against the employment of convict labor in the production of manufactured goods competing with free labor.

Public Park Dedicated.

Stony Point, N. Y., July 17.—The capture of the British fortifications here by General Anthony Wayne, in the American revolution, was celebrated on the 123d anniversary of the event, by the dedication of a public park at the scene of the conflict. The site, which overlooks the Hudson river, is an ideal one. For years the American Scenic and Historical society has been engaged in making improvements, and the reservation presents a beautiful appearance. Through the action of the legislature the hill where the battle was fought has been converted into a state reservation, and hereafter it will be taken care of by the state.

Whisky Prices Advanced.

Peoria, Ill., July 17.—The price of whisky advanced one cent on the Peoria board of trade. This brings the present price up to \$1.31 per gallon as a basis for finished goods.

USED HIS GUN.

An Umpire Shoots a Player While Running to a Base.

Cannelton, Ind., July 17.—During a ball game here Arthur Derrett, umpire, shot and fatally wounded William Whalen, the pitcher. The game was played between the Owensboro and Cannelton teams. In the last inning Whalen was at the bat and took exception to a ruling made by Derrett. After several words had passed the quarrel ceased. Whalen hit a fly and started to first base, when it is alleged, Derrett pulled his pistol and shot him twice in the back. The wounded man fell and the crowd gathered about Derrett and there were cries of "lynch him."

Strike at Richmond.

Richmond, Va., July 17.—A general strike of all the street railway employees of Richmond is on. The representatives of the union and officials of the company were unable to get together on the matter of wages. The committee of six, after a second conference with President Sitterding in accordance with their instruction, at once issued orders that the cars go to the barns at noon. The committee held two conferences with President Sitterding. At both they presented the demands of the union for a 9-hour day and a uniform rate of 20 cents an hour. At the first meeting Mr. Sitterding offered a 17-cent rate to all motormen and 16 cents and 10 cents to conductors. At the second conference he increased his proposition to 18 and 16 cents. Both propositions were rejected.

Hibernians at Denver.

Denver, July 17.—Three hundred and twenty delegates representing 32 states, Canada and Mexico, are in attendance at the biennial convention of the Ancient Order of Hibernians now in session in this city. The contest for the presidency is the absorbing topic. There are three candidates, John A. Ryan of Boston, Patrick O'Neil of Philadelphia and James E. Dolan of Syracuse, N. Y. O'Neil has the united support of Pennsylvania, New Jersey and Delaware delegations, which were the last to arrive, having been delayed 18 hours by railroad washouts.

Market For Yankee Shoes.

Boston, July 17.—One of the most remarkable campaigns in commercial history has been inaugurated by the board of trade of Lynn, Mass. It has opened communication with all United States consuls and consular agents, and is securing from them detailed reports of the conditions of the shoe market and the possibilities for Yankee shoes in their respective localities. Already hundreds of answers have been received, and the manufacturers are energetically preparing to invade every corner of the earth where shoes are sold.

Stole the Strong Box.

New York, July 17.—A sneak thief has marched into the offices of the Southern Pacific railroad, and, although there were half a hundred people there at the time, he calmly marched out again, taking with him the cashier's money box. The box contained the day's receipts. Usually it holds \$25,000 to \$50,000 in negotiable paper and cash. On this occasion, however, it held only about \$5000 in checks and notes, and the cashier thinks less than \$100 in cash.

Mr. Hatto's Job.

Charleston, S. C., July 17.—Sinko Hatto, a wealthy Japanese now residing in New York, has been appointed by his government to make a thorough study of the tea growing conditions in South Carolina. Mr. Hatto said that his government had been greatly interested in the published reports from the tea plantations in South Carolina, and desired to get facts as gathered by a personal representative.

Heavy Rain at LaCrosse.

LaCrosse, Wis., July 17.—The most severe thunderstorm of the summer broke on LaCrosse. Two inches of rain fell at Prairie du Chien and about an inch here and at Red Wing. The storm was general, according to the weather bureau along the upper Mississippi river. Here two barns, owned by Jacob Renner, were struck by lightning and totally destroyed. Much damage was done to the crops in the neighboring country.

Atlantic City, N. J., July 17.—The annual meeting of the League of American Wheelmen began here and will continue until Saturday. The first of the daily runs from Philadelphia, which will be a feature of the convention, left with about 125 starters.

EXPLOSION OF POWDER

In Daly-West Mine In Utah Causes Another Underground Horror.

NOXIOUS GASES PRODUCE DEATH.

Everyone In the Little Mining Village Is Awakened by the Tremendous Crash — Distressing Scenes Enacted by Women.

Park, Utah, July 17.—Two powder magazines at the 1200 foot level of the Daly-West mine exploded about 1 a. m., causing a great loss of life.

At 4 a. m. 27 men had been taken out of the mine dead, and several others had been recovered in a half dazed condition. These were all brought out through the Ontario mine shaft, which is a mile distant from the Daly-West, in which the explosion occurred. The 1200 level of the Daly-West corresponds to and is connected by tunnel with the 600-foot level of the Ontario.

In the Daly-West mine between 100 and 150 men were at work. In the Ontario were nearly 100, it is believed.

The disaster extends to the Ontario, as the noxious gases that have been freed are known to be the cause of several of the deaths.

There are two powder magazines at the 1200 level of the Daly-West, one at each side of the shaft, with a capacity of from one to two cars of powder each. A car of powder was added to the supply within the past few days.

Three dead men have been taken out of the Ontario shaft. They are: George Garvin, F. Swibel, employees of Edward Copp, who has the ore handling contract for the Daly-West, and D. Soderup, a miner employed in the Ontario, who was working at least a mile from the magazine that exploded. It is believed all were suffocated.

The explosion occurred at an hour when every person in town was either asleep or at work. The shock was so tremendous that it awakened every one within a radius of miles. As an example of its awful force, it is said, that two horses in the ore tunnel, one and a half miles away, rushed to the Ontario shaft house, which is midway between Park City and the Daly-West. Nearly all of them have husbands or fathers in the mines and their grief is pitiable. All of the doctors in town are at the mines. They are doing what they can to resuscitate the unconscious men as they are taken out.

Will Leave For Manila.

Washington, July 17.—Governor Taft will sail from Italy, resuming his journey to Manila. If the vatican has by that date concluded to accept the terms representing the sale of the friars' lands and the withdrawal of the friars themselves from the Philippines, the papers will be signed by Governor Taft and the arrangement will be regarded as closed. If, on the other hand, the cardinals' committee, which is dealing with this important matter, is unable to accept the terms proffered, or, if it is not prepared to make final answer, the governor will still proceed on his way and the negotiations will be suspended. This decision on the part of Secretary Root probably is the most important outcome of his recent trip to Oyster Bay, where the subject was discussed with the president.

Want Further Concessions.

Washington, July 17.—Having practically adjusted the questions connected with the surrender to the Chinese of the control of the city of Tien Tsin, this government has been asked to interest itself in the settlement of the grave differences growing out of the instance of some of the powers on the payment of their shares of the war indemnity in gold instead of silver. The Chinese government is greatly disturbed over this question, and as Minister Wu has been so successful in the other undertakings connected with the negotiations, his government has again called upon him to secure an amelioration of the demands.

Farewell Audience Asked.

Rome, July 17.—Major Porter of the judge advocate's department of the army at Washington personally delivered to Cardinal Rampolla the last note of Judge Taft on the subject of the withdrawal of the friars from the islands, which will presumably end the governor's negotiations here, as Major Porter simultaneously presented a letter from Judge Taft asking for a farewell audience of the pope.

Spa, Belgium, July 17.—The queen of the Belgians is suffering from marked weakness of the heart and her condition is arousing much anxiety.

THERE appears to be a concerted effort at Lexington to crush the Morning Democrat out of existence. Here's hoping Br'er Walton will land on top of the fellows who are hounding him.

LAST year's crop of tobacco was a poor one and the Department of Agriculture reports less acreage this year than in 1901, but these facts don't seem to affect prices. That's easy to explain, however. The market is controlled by the trust.

WHEN such founders of the Republican party as ex-Senator Geo. S. Boutwell express themselves so plainly it is calculated to cause the present leaders of the g. o. p. to call a halt in their imperial march. In an interview at Boston July 16, Mr. Boutwell said:

"I shall not vote for a Republican candidate for President who stands for imperialism. So far as they are anti-imperialists, I am with the Democrats heart and soul."

THAT Republican convention out in Minnesota tried to favor all sides of the reciprocity question. Here's the platform adopted:

We favor reciprocity with Cuba, urged by President Roosevelt, by a plan which shall insure a profitable interchange of commodities, inure to the advantage of both nations, help the Cuban people needing assistance, but the chief benefits of which shall not enrich trusts, monopolies or foreign speculators, or which shall not interrupt our home production.

Will somebody please tell us whether the Minnesota Republicans are really in favor of reciprocity?

OUR FAITH

In the wise buying of Maysville's alert women prompted us to accept a line of exquisite DuBarry Silks offered at a remarkable price concession owing to the lateness of the season. We handled the same line early this spring—in this consignment there are a few of the identical patterns we bought then. Of course, as up-to-date women you know fashion assures a revival this fall of fancy silks in DuBarry and Pompadour designs—we might more correctly say, a continuance, as the approval of style was stamped on all fancy silks this spring.

If your summer wardrobe is complete it will certainly pay you to invest in one of these exquisite silk dress patterns for future use.

There are many colors in both strong and pastel shades with a flower strewn surface or in geometrical designs, the whole finished with high luster. The price is three-fifths the original cost—

D. HUNT & SON

SUNDAY SCHOOL CONVENTION.

Proceedings of the District Meeting Held Sunday, July 13th, at Washington's Historic Church.

WASHINGTON, July 15th.—Rarely has there been a more interesting and interested assemblage than was drawn together by the announcement that on last Sunday the delightfully anticipated convention of the District Sunday School Association was to be of actual occurrence. Rejoicings filled the air, as there is no "soul so dead" that the triumph of the Sunday school marching order will not rouse it to action and effort. This pleasurable exultant continued even in greater force after the promise was noise about that these enjoyable proceedings were to be given time and place in the venerable M. E. Church whose historic fame has reached and served a use and purpose for the chroniclers of such lore in every part of this vast land. A positive enthusiasm seemed to be upon the inhabitants and surrounding community to which assertion the packed edifice bore ample testimony, and when Mr. Duley, the honored county President of this truly powerful factor for good in our midst, sounded the note of proceedings about to commence every countenance wore an expression of "blessed assurance" a good time was at hand. A fervent prayer by Rev. Dr. M. Waller of Maysville was an appropriate opening, after which a joyous and inspiring song, with organ and cornet accompaniment, was rendered by choir and congregation. It was now in order that the audience should be granted that much to be desired privilege of hearing Mr. Duley—that indefatigable worker in every movement for the public good—deliver the opening address, which he did in most pleasing and convincing style: first, making clear the fact that this organization of which he was President represented no one church or persuasion, but purely interdenominational in the scope of its teaching and purposes; and then with great fervor he descended on the high and mighty mission of the Sunday school, eloquently setting it forth as the most important work of the day and hour, laying stress on the need of more workers, more zeal and earnestness in a movement that has for its sole aim the religious instruction so urgently required in the fundamental training of the child, and indispensable in the young man's and young woman's equipment for the duties of life, giving a fitness for the world we now enjoy and the world to come—a work he enlarged upon that ought to be dear to the hearts of parents, kindred and teachers: the heart-felt meaning is given in the Apostle's declaration that "God, our Savior, will have all men to be saved and come into the knowledge of the truth." He well knew there were many faithful and efficient teachers, but the "Lord's Vineyard" covered the world and many more could be utilized.

This most excellent address was listened to with deep interest, as so pleadingly did Mr. Duley appeal to every parent and all entrusted with the solemn responsibility of immortal souls that we are sure the affections and the will must have had a new awakening. Precious jewels, idols of home and church—why neglect them? were the last loving words of this "children's friend." In apt quotation Mr. Duley found expression for very many of the "true and beautiful" things that he said, but for want of space we must forbear to reproduce them here.

Enchanting song was the next offered pleasure and as Miss Florence Wadsworth, with graceful step, ascended the platform all knew a rare treat was in waiting, and when in cultured and beautiful voice, this sweet songstress rendered a grand solo, the spell of entrancing melody was upon every listener, as in wonderful tones the range and compass of her marvelous voice reached a height, seeming easy of performance, yet we feel assured none other than this "mistress of song" could have attained unto it. Not often is it granted us to hear such powers of voice apart from the professional world of song.

Music so beautifully interspersed through these delightful exercises—it was with reason that we should expect with the charm of song still lingering in our ears to be regaled with some choice selections by the choir and congregation, as we were, and a most fitting introduction to the fine address delivered by Rev. Mr. Dickey, pastor of the Washington M. E. Church, on the great value, beauty and sublimity of the Bible—his close knowledge of the same enabling him to show with clearness and force how superior in its majesty and purity to any work penned by the hand of man. How almost contemptible every other work appears in comparison with the scriptures. Whether we regard this "only book" as the greatest student minds of all ages have been pleased to term it—as the inspired word of the "Giver of all good," or as a chart by which to shape our way and walk in life—it transcends in importance and value all other written or spoken words; and so how more than essential, said Mr. Dickey, the child should be brought early into a study of its pages that he may through its whole life grow into virtuous and intelligent manhood. If the true basis of high charac-

ter "diligent in business, fervent in spirit, serving the Lord" must take deep root important it is that he have an early familiarity with the "one book," profitable for doctrine, reproof and instruction." The Sunday school is the true "hall of learning" for the youth, whose exalted religious principle is to enroll him in the "safe guard" for his nation, State, fireside and home. An eloquent plea for the Sunday school was Mr. Dickey's address wherein he was pleased to give some interesting information as to the time and manner of the Sunday school's first formation, the outgrowth of which idea the great uplift in secular schools and the Chautauqua movement was suggested and founded on the Sunday school idea of giving the masses, young, old, great and small, the opportunity of thorough education, and true spiritual growth.

After this very edifying address a solo of high order and a true "prayer song" was rendered in baritone voice of exceeding richness by Mr. E. W. Smith. It was much enjoyed.

The usual choir and congregation singing now ushered in a most interesting black-board exhibition. An illustrated lesson furnished by the well-known talent of Mr. Irvine in a skillful and artistic drawing—"Moses receiving the law at Mt. Sinai." In admirable manner Mrs. Dickey gave the explanation of this finely given illustration, using the Savior's method of drawing instruction from all surrounding objects as a reason for teaching by illustration—surely a most impressive way in the child's mind Bible topics and truths.

Rev. Mr. Young, the noted temperance lecturer, now gave an added spice and interest by his well-timed, humorous and common-sense brief address in advocacy of the powerful influence of the Sunday school for good. The finale chosen for this ever-to-be remembered occasion of delight and instruction was most apt and tasteful, a solo of tender sweetness and beauty by Miss Wadsworth. Again her lovely voice rang out in the soft summer air, breathing a melody, "sweet to remember." In the tenderly touching refrain, "Lead Me Gently Home," she was joined by the voices, pure and sweet, closely allied to her own beautiful gift. Mr. and Mrs. Wadsworth, parents of the gifted young girl, rendered the chorus to this exquisite solo, greatly enhancing an effect already charming.

We cannot close without a word of praise for the beautiful voluntaries and accompaniments, as rendered by Mr. Irvine, cornetist, and that very accomplished organist, Mrs. Ed. Geisel. Surely a rare musical treat, for which expressions of highest appreciation were to be heard on all sides.

With the election of new officers, collection for this grand work and prayer benediction by Mr. Dickey, this occasion of real interest and pleasure was brought to a close, we trust to be followed by a deep infusion of true "Sunday school spirit."

Instead of the garden party to be given on Mr. R. A. Cochran's lawn Friday of this week for the benefit of the Y. M. C. A. there will be a boating party on the Laurence. Let every one who can go. Round-trip only 15 cents.

Mr. George H. Frank arrived Wednesday from Mannington, W. Va., and is receiving a hearty welcome back to his old home. He and his partner, Mr. W. M. Archdeacon, the new clothing firm, will at once begin preparations for the opening of their store about the first or middle of August.

If you want to purchase the purest and best goods on earth go to G. W. Rogers & Co., 127 Market street, where you will find old Bourbon and rye whisky, apple and peach brandy, California brandy, malt gin, California port, sherry and Maderia, K. I. sweet Catawba and dry Catawba wines &c. We guarantee all of our goods to be strictly pure.

The move to start a new band here in Maysville should be heartily encouraged by every one. The famous old Maysville band of which we were all so justly proud has practically gone to pieces. Some of the members of that organization are in the move to start the new one. There is plenty of material for a first-class band. What is needed is to get that material together and have it thoroughly drilled. At the meeting this week the following were present: Bert Fletcher, J. Harry Richardson, James O. Outten, L. N. Harding, Joseph Lowery, Kenneth Clark, Wyatt Insko, Lee B. Gray, Eck Ellis, Charles Roberts, Ben Fleming, Fred Cabilish, Henry W. Ray, Charles F. Fist and Andrew Curtis. It's a Sure Thing

That you can buy a pair of men's Shoes at the New York Store cheaper than anywhere else, for the simple reason that all men's Shoes must be closed out in a few weeks to make room for another class of merchandise. Ask people that bought some last week about the prices—it will astonish you. Don't forget that we also carry a splendid line of ladies and children Shoes, and that we give you better values than regular shoe stores. We carry a nice clean line of goods, and are anxious to please you.
